ASAH Endorsed Computer Consulting firm.

PARADIGM PIONEERS, INC.

Paradigm Pioneers, Inc. is a close-knit Computer Consulting firm with large enterprise experience, focused on solving the needs of only New Jersey Private and Special Education Schools. We'll be there to meet your business' IT needs with an easy to use, time- saving solution. Paradigm Pioneers has assisted ASAH members in developing their technology plan and ensures it is implemented with success! We can help achieve the same for you.

We offer a suite of administrative applications to keep your school focused on your students and not your staff's administrative tasks. Paradigm Pioneers can help you integrate or convert your existing network. Choose from a wide array of IT Services, ranging from web hosting to full network conversions with custom written applications. Using the most appropriate technology, Paradigm Pioneers can help you use and manage your information more efficiently and effectively, saving time and money and increasing quality.

Our clients choose Paradigm Pioneers over others because our system is customizable, comprehensive, easy to use, reliable, and constantly growing to meet their needs and reporting requirements for New Jersey. Example: Month ahead billing that works effortlessly while automatically adjusting for students that move among districts and for inclement weather. We perform continuous System and Report customization to keep up to date with New Jersey requirements. New Jersey Special Education Schools decide the direction in which your program will grow based on your need.

On Site Help Desk Support

Do your PC and network routine tasks consume much of your time? Ask us how our on-site, professional, friendly staff can manage your daily PC needs. We will take care of diagnosing and fixing broken machines, performing routine PC, software and printer maintenance and new PC installations, saving and migrating your data from your old PC. We offer a web-based Help Desk Request and Tracking system, as well as Server Support contracts to assist you.

Web Development and Online Event Registration

Paradigm Pioneers is requested annually to program the web registration and processing needs of large events such as the Midland Run and ASAH's annual Fall Conference with 3000+ and 1300+ registrants, respectively... see the Web for the complete story about how technology was leveraged at ASAH and Midland's Events...www.ppihx.com

Secure Networks, Safe Internet Access & VPN Access.

Don't be exposed to potential lawsuits by not having the proper safeguards against inappropriate web and email content. Paradigm Pioneers provides: Network Design, Wire and Wireless Installations, Internet access, Email, Website, Firewall, Remote Access. We have experience with Multi-Campus Installations with Secure High Speed VPN connections linking networks together. We have the know-how and experience to give your staff secure remote access to your school, enabling teachers to work from home on their IEP/Progress Reports.

Reliable – We treat your information with the utmost confidentiality and care. That's why we use a multi-faceted approach to ensure your data is protected in every way possible. Disaster Planning and Recovery methods are available in the unlikely event of an emergency. Program updates are quick and your data will not be lost or corrupted during an upgrade.

I- Incomplete

Gerry Thiers, Executive Director, ASAH

A+

"ASAH Members rave about the IT services of Paradigm Pioneers. Paradigm Pioneers provides customized software development, hardware installation, web development and technology plan consultation for private special education schools. Paradigm Pioneers eases administrative tasks so that schools can focus on educating their students."

Phil Gartlan, Executive Director, The Midland School

A+

"The service and program have made our school run so much more efficiently. The bottom line is now our teachers have more time to spend with the kids. The computer foundation we now have has enabled us to grow and take advantage of all the Educational and Adaptive technology available for our students. It feels good to know that I am putting a fellow ASAH member in good hands when I recommend Paradigm Pioneers."

Vincent Renda, Executive Director, School for Children

A+

"You have assembled a highly talented, personable, and responsive group of professionals who really understand the business and information management needs of the approved private day schools. As a result, we enjoy the benefits of a professional information services team without the expense, administrative overhead, and organizational stress of creating our own IS department. In fact, Paradigm Pioneers provides a much greater scope and depth of services and knowledge than we could develop as a school because we could never afford to hire individuals with the broad range of software, network, and systems experience represented on your team."

Allan Kahn, Principal, ARC Kohler School

A+

"We bought your program for The Arc Kohler School on the recommendation of other similar private schools. We are very happy to add our name to your long list of supporters. When the state implemented the advance billing system, we anticipated many problems. Your program is able to handle all enrollment, billing, attendance, food program, medical, and IEP issues. Most important of all is your accessibility. You didn't just sell us a program and forget us. You are here when we need you. You can tweak the system as needs arise. It is GREAT to have a program that can change as the need changes."

Joseph E. Gorga, Executive Director, Lord Stirling School

A+

"The year prior to incorporating the Paradigm Pioneers System into our school's operation the advanced billing was a complete nightmare. Report writing and attendance also required multiple steps, using hours of teacher time and then additional time with office staff. With the new program everything runs smoothly and the hours of staff time required has been greatly reduced. In the rare event a glitch develops, the staff at Paradigm Pioneers are able to be reached immediately, whether it be by phone or email and rectify the problem quickly. I have been so pleased with your service that I entered into our service contract with Paradigm Pioneers, still having a half year of contracted service with another company."

Bruce Littenger, Executive Director, ECLC of NJ

A+

"We have received excellent support for our entire computer network. We are very pleased with the help desk consultant they have deployed to our school. He is friendly, knowledgeable and a hard worker."

Dr. Geri Gibbia, Executive Director, Phoenix Center, Inc.

A+

"Steve consistently has been available and has promptly returned all of our phone calls with regard to upgrading our computer system. He is extremely knowledgeable, polite and eager to please his clients. He is a pleasure to do business with."
